

النورس للتوريدات الطبية والمخبرية ذ.م.م AL NAWRAS MEDI-LAB SUPPLIES LLC

UAE - KSA - OMAN

CORPORATE BROCHURE

ABOUT US

AL NAWRAS, founded in 1988 and located in the UAE, one of the very first well-established companies in the sector of healthcare and life science in the GCC region. We are committed to provide innovative solutions for our clients in the health care and life science sector, with cooperation with our partners to offer technological advancements that help facilitate their work.

WHY US?

Trust & Transparency

Ingenuity

Responsibility

Sustainability

OUR SOLUTIONS

LIFE SCIENCE & RESEARCH

We commit to offer a wide variety of solutions for life science & research, starting from Equipments, Reagents and Consumables for PCR, RT-PCR, Digital PCR, Gel Imaging, Electro phoresis & Blotting, and all the way up to Flow Cytometry Instruments and Reagents, Elisa Research Assays, Stem Cell and Cell Culture Assays. In addition, Al Nawras team of specialised biomedical engineers and technicians will accompany you to cater your needs pre and post sales. We offer our assistance starting with advising the most suitable solution for your needs, product trainings and ultimately technical troubleshooting.

BIO-RAD

- Droplet Digital PCR
- Real Time PCR
- Single Cell Sequencing
- NGS Library Prep
- Pre-validated assays
- Custom offerings

Molecular

Proteomic

- Western Blotting
- Multi-Plex Immunoassays
- Protein Chromatography
- Process Chromatography

- Cell Sorting
- Cell Analysis
- Cell Counting
- Cell Imaging
- HuCal Antibodies

Cellular

HOLOGIC[®] Diagenode

Complete solutions for epigenetics research, biological sample preparation, and diagnostics assays.

- Automation - ChIP, DNA methylation, NGS library prep
- Bioruptor DNA and Chromatin shearing
- Validated ChIP, DNA methylation and NGS library prep solutions
- Ultra-validated ChIP antibodies

Bioruptor[®] Pico sonication device

Megaruptor[®] 3 DNA Shearing System

Recommended by PACBIO[®]

SPATIAL BIOLOGY

BEST-IN-CLASS SPATIAL MULTI-OMICS

By bringing together best-in-class technologies from NanoString and Canopy Biosciences, Bruker Spatial Biology has created an expansive ecosystem of the most innovative discovery and translational research solutions for exploring spatial biology. This broad comprehensive portfolio addresses the different and unique needs of spatial researchers around the world.

Discover Next-Generation Spatial Transcriptomics, Proteomics & Genomics

Best-in-Class Solutions for Spatial Biology Research

Oncology
Identify cancerous tissue with single cell resolution, develop targeted therapeutics, and monitor treatment progress.

Immunology
Profile the entire immune landscape, including deep spatial phenotyping and identification of rare cell types.

Neuroscience
Map the structure, morphology and arrangement of neurons to understand the central nervous system.

CellScope™ Precise Spatial Proteomics
Straightforward and flexible quantitative spatial proteomics with high resolution

nCounter® Analysis Platform
Rapid, reproducible gene expression and multiomics insights for translational research

CosMx® Spatial Molecular Imager
High-fidelity spatial exploration of the whole transcriptome with subcellular resolution

GeoMx® Digital Spatial Profiler
Regionally customized high-plex multiomics for high throughput spatial discovery

Meet Beacon Discovery™

The most accessible optofluidic platform from Bruker Cellular Analysis. Designed in a compact benchtop format, making function-first, live single-cell research possible for a broader range of academic, translational, and biotech labs.

Understand the Life of Single Cells
Pioneering live single cell, multimodal and temporal functional analysis to accelerate scientific breakthroughs.

Transforming Single Cell Analysis Beyond Imagination
Applications across all stages of discovery & development

PRODUCT SUITE
Beacon Optofluidic
Functionally profile live single cells to discover new therapeutic antibodies quickly and efficiently, interrogate T cells and identify novel cell therapies, and compress cell line development timelines while maintaining high quality and productivity.

PRODUCT SUITE
Proteomic Barcoding
Capture highly multiplexed cytokine, chemokine, and phosphoprotein signatures from single cells to predict disease progression, treatment resistance, and therapeutic efficacy.

WATER MICROBIOLOGY TESTING

LABORATORY WATER TEST KITS FOR COLIFORMS, E. COLI, HPC, AND ENTEROCOCCI

Coliforms/*E. coli*

IDEXX Tecta

The first U.S. EPA-approved automated water microbiology testing system that delivers fast, accurate results anytime, anywhere.*

UV Viewer PLUS

A new, 365 nm UV cabinet designed by laboratory analysts for an easier and quicker objective read.

MICROSCOPY & IMAGING SYSTEMS

Leica

MICROSYSTEMS

From stereo to digital microscopy, and even super-resolution imaging, Leica offers a comprehensive range of instruments to meet diverse research needs. Elevate your work with our sample preparation solutions for electron microscopy, ensuring unparalleled clarity and detail in your observations.

- Light & Educational Microscopes
- Stereo Microscopes & Macroscopes
- Digital Microscopes
- THUNDER Imaging Systems
- Confocal Microscopes
- Electron Microscope Sample Preparation

THUNDER Imaging System

Leica DM2500 upright microscope

More than a highly automated microscope, Mica unites wide-field and confocal imaging in a sample protecting, incubating environment.

Emspira 3 Digital Microscope

DM500 & DM750 Educational Light Microscopes

DM IL LED Inverted Microscope

Stellaris 8 Confocal Microscope

MOLECULAR & CLINICAL DIAGNOSTICS

gch GENCURIX

Gencurix provides diagnostic solutions throughout the cancer treatment cycle from early cancer diagnosis to prognostic and companion diagnostics as well as postoperative monitoring.

charles river

The Endosafe® nexgen-PTS™ is a rapid, point-of-use handheld spectrophotometer that uses USP/BET-compliant disposable cartridges for accurate, convenient, and real-time endotoxin testing, glucan concentration determination, and Gram identification.

Saladax BIOMEDICAL

Revolutionizing Psychiatry and Oncology with Rapid Therapeutic Drug Monitoring
* High-Quality Assays for Rapid Therapeutic Drug Monitoring

MyCare™ Oncology

MyCare™ Psychiatry

LABORATORY EQUIPMENTS AND SUPPLIES

When it comes to Laboratory equipments & supplies, Al Nawras provides complete solutions to successfully setup and excute your laboratory. With our team of Experts, Engineers & Technicians, we have successfully furnished & launched laboratories in different fields, including the configuration, installation & training on the equipments.

ThermoFisher SCIENTIFIC

Benchtop and Floor Centrifuges and rotors
CO2 Incubators
Shakers
Temperature Control
Heating Equipment

Benchtop laboratory essentials
Water Analysis instruments
Cold Storage Solutions and ULT Freezers
Water Purification Systems

LABCONCO

Labconco is dedicated to building superior laboratory equipment: Fume Hoods, Biosafety Cabinets, Balance Enclosures, Glassware Washers, Water Purifiers, Glove Boxes, Forensic Enclosures & Freeze Dryers.

Myr

Histology & Histopathology Equipment

Discover our broad range of histology equipment to perform processing, embedding, cutting, and staining of tissues.

- Spin Tissue Processor
- Modular Tissue Embedding Center
- Semi (Automated) Rotary Microtome
- Automated Slide Stainer
- Microtome Disposable Blades

LTE Scientific is one of the most established and well respected manufacturers of laboratory equipment in the UK.

- Laboratory Autoclaves & Loading Systems.
- Laboratory Washer Disinfectors.
- Ovens, Incubators & Drying Cabinets.
- Environmental Chambers.

LAUDA

THE GLOBAL LEADER FOR PRECISE TEMPERATURE CONTROL EQUIPMENT

Constant temperature equipments:

- Thermostats
- Circulation chillers
- Water Baths

GFL Technology:

- Water Stills

GILSON®

Gilson is specialised in developing liquid handling, purification, and extraction solutions with a focus on helping the life scientist at the bench achieve more productive research and verifiable data.

- Pipettes & Pipette Tips
- Liquid Handling Systems
- Extraction Systems
- Benchtop Devices

cytiva

Whatman Lab Filtration Products – Analytical sample preparation

- Cellulose filter papers
- Filtration devices
- Membranes
- Syringe filters
- Whatman microbiology testing
- Disk & Capsule filters

FORENSICS & CRIME SCENE

- Forensic Enclosures, Evidence Drying Cabinets and Fuming Systems.
- DNA Collection Devices, Swabs, FTA cards and Customized Collection Kits
- Specialized Devices for Threat/Chemical Detection
- Forensic Biological detection Kits & Drug Detection Assays.

Enhance the efficiency of forensic body fluid investigations with SERATEC® PSA Semiquant, HemDirect and AmylaseTest. AmylasePaper for saliva mapping and PMB Test for the detection of menstrual blood.

QIAcard FTA For collection, stabilization, processing, transport and archiving of biological samples
 Indicating FTA Cards are intended for molecular biology applications in forensic, human identity, biosecurity and paternity testing. These products are not intended for the diagnosis, prevention, or treatment of a disease

Analytical Reference Standards
 Cayman Chemical offers high-purity reference standards for forensic analysis, specializing in synthetic cannabinoids, cathinones, phenethylamines, amphetamines, indanes, opioids, benzodiazepines, tryptamines, and phytocannabinoids.

ANALYTICAL CHEMISTRY

Unlock the power of precision analysis with our cutting-edge laboratory analytical chemistry instruments. From spectrophotometers to mass spectrometers, our advanced tools empower researchers to unravel the mysteries of chemical composition.

WIRELESS TEMPERATURE MONITORING

Discover our environmental monitoring solutions, including wireless temperature monitoring, data loggers, and intuitive software. Ensure precision, compliance, and peace of mind in diverse industries with our innovative products.

MICROBIOLOGY & TISSUE CULTURE

Sample Preparation:

- Gravimetric dilutors
- Dispensing pumps
- Lab Blenders

Bacterial Analysis

- Real time incubator & colony counter
- Colony counters
- Automatic Platers

Cell Biology:

- Serological Pipettes
- Flasks, Roller Bottles
- Culture Plates
- Inserts
- Dishes & Media
- Bottles for Sera/Media
- Centrifuge Tubes

- Supplements & Additives
- Factors
- Cytokines & Growth
- Culture Chambers
- CO₂ Incubators

APPLICATION & TECHNICAL SUPPORT

At Al Nawras, we understand the critical role that laboratory equipment plays in your scientific endeavors. To ensure the seamless operation and longevity of your valuable assets, we proudly offer comprehensive service and maintenance contracts, alongside with installation and calibration services tailored for laboratories across the region.

Expert Technical Support

Our team of highly skilled and certified technicians is dedicated to providing top-notch technical support. With a deep understanding of a wide range of laboratory equipment, we are equipped to address any issues promptly and effectively.

Regular Preventive Maintenance

Proactive care is key to preventing equipment downtime. Our preventive maintenance schedules are designed to identify and address potential issues before they escalate, ensuring optimal performance and reliability.

Customized Service Contracts

We offer flexible service and maintenance contracts. Choose from our range of packages to find the one that best suits your needs, whether it's an annual contract or a more comprehensive multi-year agreement.

Turnkey Projects

We offer comprehensive services from conception to completion, ensuring precision in every aspect of your lab setup. Experience excellence in laboratory design, equipment procurement, installation, training and maintenance.
